Anglicare's Drug and Alcohol Treatment Service

Has your drug or alcohol use become problematic? Are you experiencing mental health issues or at risk of homelessness?

Anglicare offers personalised treatments to support you to reduce the impact of substances on your life. Treatment is available to anyone living in Tasmania aged 12+, for any alcohol or other drug problems.

Take back your life by taking ownership of your own recovery.

We can help you:

- Work through risks, provide information and develop a plan to support what you want to change
- Access counselling, information, advice and refer you to vocational, financial or other social support services.

The service is provided at no cost to you. You can either self-refer or be referred by family, friends or healthcare professionals.

To make an appointment call **1800 161 266** or email connectsupport@anglicare-tas.org.au.

This service is supported by funding from Tasmania PHN (Primary Health Tasmania) through the Australian Government's PHN Program.
