"The one on one time with my child has been great, I think it has done us both a lot of good!"

"The thing I liked best was connecting with my child, we understand each other better now!"

Parents and Kids Together is a fun 7 week activity-based program for children aged 6 - 12 years and their parents & carers. Parents & carers work with their children to create something special together, mainly from recycled materials!

There is no need to have art experience for this group. You just need a willingness to have a go and maybe get a little bit messy!

The aim of the program is to strengthen family relationships and connections to school and community, and to have lots of fun together!

The PAKT groups are a fun and safe space for all parents, carers, and kids, where we focus on people's strengths!

PAKT participants and the information they share, are always treated respectfully.

The PAKT program is free and healthy snacks are provided!

Parents and Kids Together provides opportunities to...

- Enjoy one-on-one time with your child at school
- Design and make a creative project using recycled materials
- Make new friends
- Learn new skills
