WELCOME HANNAH!

Introducing Hannah Rizwi into the new position of Community Connector at West Winds!

Hannah has an extensive background in community services, engaging with the community through her work with organisations such as Save the Children and the YMCA. Hannah has particular strengths in program development, client case management and volunteer coordination.

The purpose of the Community Connectors role is to enhance West Winds capacity to address individual, family and community issues by connecting people to appropriate programs, services and resources. Hannah will be working closely with Steph and Kate to broaden our capacity for community development at West Winds.

"In my role here at West Winds I'm always looking out for ways to engage our whole community in opportunities for increasing wellbeing and connection, while utilising our resources".

The Community Connector program is funded by DPAC
